* This total will generally be more than the aggregate of the three preceding columns of sittings. The excess consists of sittings provided by Churches which cannot be included under either of the above classes, but which are reckoned in the total; viz.—the Catholic and Apostolic Church, the *Letter Day Saints*, and the *Jews*.

† Including an estimate for defective returns.

‡ The figures in this column are made up of the aggregates of the Districts, so as to allow for the effects of unequal distribution. (See Report, pp. cxviii-cxxvii.) Consequently they will not correspond with a deduction of the total sittings in a division or county from 33 per cent. of the total population of the same Division or County.

*The number of sittings here given for each District includes an estimate for defective Returns; the average number of sittings to a Church or Chapel in the whole of England and Wales being taken. (See ante, page cclxxv.) except where, from the number of attendants stated, it is evident that the number of sittings in that particular case must be above the average; in such cases the sittings have been reckoned at a fourth more than the attendants.

In some cases this Total will be more than the aggregate of the three preceding columns. The slight excess will consist of sittings provided by churches which cannot be included under either of the above classes, but which are reckoned in the total; viz., the Catholic and Apostolic Church, the Latter Day Saints, and the Jews.

* The mode of compiling this Table has been, to take for every individual church or chapel the service (whether Morning, Afternoon, or Evening) at which most persons were present, and make an aggregate for each of the bodies above mentioned. In some cases the best attendance would be in the Morning, in others, in the Afternoon, in others, in the Evening. The total thus divided would show the minimum number of persons who attended service on March 30, 1851, if no one attended more than one church or chapel. To the extent to which the practice prevails of frequenting more than one place of worship will this inference be liable to modification. The same consideration will affect the comparative proportions between dissenters and church members; since no doubt some numbers who attended Dissenters' services in the evening had worshipped with the Church of England in an earlier portion of the day.

* The First Division—consisting of the metropolitan portions of *Middlesex, Surrey, and Kent*—commences with District No. 1. (KENSINGTON), and terminates with District No. 36. (LEWISHAM).

† The total number of Sittings will generally be found to be more than the number of "Free" Sittings added to the number of "Appropriated"; the reason being that in many returns no distinction was made: the total number only being given.

1. KENSINGTON.—The returns omit to state the number of attendants in two of the 23 places of worship belonging to the ESTABLISHED CHURCH, containing 1920 sittings; and in one place of worship belonging to the INDEPENDENTS, containing 420 sittings.

3. ST. GEORGE, HANOVER SQUARE.—The returns omit to state the number of attendants in four places of worship belonging to the CHURCH OF ENGLAND, containing 2300 sittings; and in one place of worship belonging to the ROMAN CATHOLICS, containing 500 sittings.

4. WESTMINSTER.—The returns omit to state the number of sittings in one place of worship belonging to the CHURCH OF ENGLAND, attended by a maximum number of 300 persons at a service; in one place belonging to the PRIMITIVE METHODISTS, attended by a maximum number of 42 persons; and in one place belonging to the ROMAN CATHOLICS, attended by a maximum number of 500 persons.
