2. Summary of duties

Overall job purpose

To contribute:

- to the academic leadership in the development and delivery of qualifications and modules and resources in sport and coaching;
- substantially and actively to developing research, scholarship and collaborative activities within and beyond the University.

Main duties

1. Contribute to the planning and preparation, writing and updating of distance learning modules and resources that may include the use of print, audio, video and information and communications technologies (e.g. synchronous and asynchronous computer-mediated communication) in sport and coaching.
2. A leading contribution to decisions about curriculum development, teaching and work-based learning assessment strategies that connect with coaching.
3. Brief, liaise with and co-ordinate the work of consultant writers as necessary.
4. Direct contact with students through a variety of means, for example, e-moderating of forums, as appropriate.
5. Lead the recruitment, briefing, debriefing and training of part-time teaching staff (Associate Lecturers) in the coaching domain.
6. Contribute to the maintenance of relevant modules, including preparing tutor-marked assignments and examination papers, monitoring of assessment, and membership of Examination and Award Boards.
7. Conduct research and scholarship aligned to sport coaching/work-based learning and the broader Faculty strategic priorities and through seeking external funding and contributions to academic publications, conferences and external activities as appropriate.
8. Contribute more broadly to the activities of the School of Education, Childhood, Youth and Sport and Faculty as required.

5. About the unit/department

Faculty of Wellbeing, Education and Language Studies

The Open University has embarked on a period of transformational change. A new Strategic Plan will further strengthen our offerings for students, providing an outstanding and professionally-focused learning experience. In August 2016, the University restructured into four new Faculties, each comprising of a number of Schools. The new Faculty is based in Milton Keynes and in regional and national offices with our

Student Support Team will be located in Nottingham. The majority of our 35,500 students are in the UK, but the Faculty also has students in the Republic of Ireland, Continental Western Europe and elsewhere in the world. The Faculty's curriculum comprises programmes at undergraduate, Masters and doctoral levels.

The School of Education, Childhood, Youth and Sport

The school currently has 7 qualification areas covering childhood and youth, youth work, sport and fitness, primary and early years – offered in the UK and beyond. Programmes range from Access modules (pre undergraduate Level 1) to Postgraduate Research. The school is composed of just over 500 Associate lecturers, nearly 14,000 students and 118 members of staff. In addition we have a long history of running international projects in, for example, Africa, India, Bangladesh and Indonesia.

Our undergraduate degrees are currently:

- BA (Hons) *Childhood and Youth Studies*;
- BA (Hons) *Early Childhood*;
- BA (Hons) *Education Studies (Primary)*;
- BSc (Hons) *Sport, Fitness and Coaching and*
- BA (Hons) *Youth Work*.

Our postgraduate degrees are currently:

- Masters degree in *Education*
- MA in *Childhood and Youth*

In addition we also contribute to the main OU Psychology Programme at all levels in the areas of child development and sport and exercise psychology. Currently the level 1 undergraduate module *Introduction to Childhood Studies and Child Psychology* (E102) (3,500 students a year) is a key component of our teaching profile along with *Psychology of Childhood and Youth* (E219) (2,000 students a year). Members of the School are part of Education Futures Research Cluster which has a strong record in research income generation. Members of the School are academic advisors on a number of Television and Radio productions including the BBC programmes *Child of Our Time*, *Bringing up Britain* and have been responsible for the related information available on Open Learn <http://www.open.edu/openlearn/body-mind/childhood-youth>.

The Sport, Fitness and Coaching Programme

Two members of staff joined the University in 2006 to establish this new subject area from scratch. Now, it is anticipated that in 2018 some 2700 students will be studying across seven modules in the degree programme supported by 10 academic staff and around 100 part-time Associate Lecturers across the UK. This vibrant and

growing programme has now firmly established itself and there are links with the OU Business School. This latter partnership has led to a degree *BA Business Management (Sport and Football)* working in close collaboration with the Football League Trust.

The post holder should be active in sport and fitness working practices and be good in the written word. This will be an exciting opportunity for the post holder to develop their experience in Higher Education and skills in distance learning. The post involves close team working with colleagues in developing compelling material for modules and for wider public engagement online (e.g. *The Conversation*, online interactive apps).

Future plans will involve investigating the viability of a coaching-related Masters programme and new opportunities in higher/degree Apprenticeships. We are also developing more interactive (e.g., wearable technology) resources and augmented reality for students to engage in the learning process.
