# Feedback alignment
# Self-evaluation template for tutors

Look at the assignment that you just assessed.

What was the main strength of this piece of work in terms of <Criterion 1, e.g. **the use of language** >?

Did you explicitly provide this information to the student?

- ● No, because the student should be able to work it out
- ● Yes, I told the student in my feedback
- ● No, because this information would not help the student
- ● Unable to answer because the question does not apply

Give one specific example of this strength in the work you just assessed.

Did you explicitly provide this information to the student?

- ● No, because the student should be able to work it out
- ● Yes, I told the student in my feedback
- ● No, because this information would not help the student
- ● Unable to answer because the question does not apply

Explain what is good about the example that you just gave.

Did you explicitly provide this information to the student?

- ● No, because the student should be able to work it out
- ● Yes, I told the student in my feedback
- ● No, because this information would not help the student
- ● Unable to answer because the question does not apply

Suggest one thing the student could do to build upon this strength in future.

Did you explicitly provide this information to the student?

- No, because the student should be able to work it out
- Yes, I told the student in my feedback
- No, because this information would not help the student
- Unable to answer because the question does not apply

What was the main problem area this piece of work in terms of <Criterion 1, e.g. **the use of language**>?

Did you explicitly provide this information to the student?

- No, because the student should be able to work it out
- Yes, I told the student in my feedback
- No, because this information would not help the student
- Unable to answer because the question does not apply

Justify/Explain the correction you just suggested.

```

```

Did you explicitly provide this information to the student?

- 🟢 No, because the student should be able to work it out
- 🟠 Yes, I told the student in my feedback
- 🔴 No, because this information would not help the student
- 🔵 Unable to answer because the question does not apply

Suggest one thing the student could do to overcome this problem in future.

```

```

Did you explicitly provide this information to the student?

- 🟢 No, because the student should be able to work it out
- 🟠 Yes, I told the student in my feedback
- 🔴 No, because this information would not help the student
- 🔵 Unable to answer because the question does not apply
