

## EVOLUTION MEGALAB NEWSLETTER: ISSUE 12 MAY 2009

Thank you to everyone who submitted news for this issue. If you have any news that you would like to be included in a future issue, please email it to Jenny at [j.p.worthington@open.ac.uk](mailto:j.p.worthington@open.ac.uk) by the 20<sup>th</sup> of the month

### NUMBER OF RECORDS ADDED

As of the 3<sup>rd</sup> June we have had 3026 records added to the website.

Please see the attached web stats for further information

### LET US KNOW WHAT YOU'RE UP TO!

If you would like to let everyone else know what has been happening with the Evolution MegaLab in your country please can you send me the text and any pictures by the 20<sup>th</sup> of the month.

### NEWS FROM PORTUGAL

The "Evolution Megalab" project was launched in the beginning of April. The initiative was widely announced throughout several science venues, such as the Ciência Viva centres or science museums.

On the 15<sup>th</sup> and 16<sup>th</sup> a group of scientific educators and promoters will gather for the first "Evolution Megalab Workshop". This meeting will also include the presence of expert researchers who will instruct the participants on the procedures for the observation, classification and on-line registration of the data concerning the *Cepae nemoralis* snail species.

For more info on the project, consult the following website [www.darwin2009.pt](http://www.darwin2009.pt)

### WORK ON THE WEBSITE

The Web Developer on the Evolution MegaLab website, Richard, has now moved on to another project.

Any further work to the website that may need to be carried out will be prioritised against other work and therefore may be delayed. If links become broken etc these will obviously be fixed as soon as possible.
