**YOU CAN DO IT**

The main reason we’re called The Open University is that we’re open to everyone. Every year, we help thousands of people achieve extraordinary things.

- There are no formal academic entry requirements at undergraduate level.
- We helped around 22,000 students with disabilities and additional needs last year alone.
- Our students are diverse. 30% of new undergraduate students are under 25 and our oldest students are in their nineties.

**WHAT YOU NEED**

There are just a couple of things that you’ll need to be able to study with us.

- A computer with internet access. But don’t worry if you haven’t got access to one right now – you could receive help to buy a computer.
- A good grasp of the English language. Our courses are taught in English, so if you’re unsure whether your English is at the right level, go to openuniversity.co.uk/englishlanguage for help and guidance.

**HAVE YOU STUDIED BEFORE?**

If you’ve studied at higher education level before, it might count towards your OU qualification, cutting down the modules you’ll need to study as well as saving you time and money.

If you tell us what you’ve done, we’ll do the rest.

Go to openuniversity.co.uk/credit-transfer.

The company I work for has customers all over the world, so the fact that I can now communicate in French and Spanish was one of the key factors that made them offer me the job. I’ve been able to use my languages already, and have gained the extra skills needed to communicate with overseas customers and suppliers.”

At postgraduate level, we have a Masters degree in Education which offers an applied linguistics route. We also offer an MA in Translation. Both subject areas also offer postgraduate certificates and diplomas.

As a postgraduate translation student, you can study French, German, Italian, Spanish, Modern Standard Arabic or Mandarin Chinese, in combination with English.

If you don’t have much experience of university-level study or haven’t studied in a while, you could benefit from starting your studies with one of our Access modules.

They offer a great introduction to a range of subjects and act as a taster to see if you want to delve deeper. Students who start with an Access module do better on their next module, so it’s a great way to start your chosen qualification. You might even qualify to study your Access module for free.

You don’t have to start with an Access module, but you might find it useful if you’d like to:
- improve your confidence
- get a taste of a subject area you’re thinking of studying
- brush up on your study skills.

Each module includes a selection of materials, online quizzes, and assignments that you complete over 30 weeks. It takes around nine hours of study each week.

You’ll get:
- a personal tutor providing regular feedback with one-to-one telephone tutorials
- further support from a dedicated team throughout your study
- detailed written feedback.

WHAT DO YOU NEED TO BEGIN?

You can start Access modules in February and October.

You’ll need:
- access to a phone
- the use of a computer with internet access – you don’t need to buy one though, the use of one at a public library will be fine.

WHAT YOU CAN STUDY

The following Access module will prepare you for the qualifications we offer in modern languages and English language.

*Arts and languages Access module (Y031)*

This fascinating module explores a range of subjects – including art history, English language, English literature and creative writing. It touches on modern languages, history, religious studies, classical studies and music too. Ideal if you want to explore your creative side, have an interest in language, or want to start honing your study skills.

We offer two other Access modules, which are more relevant to other subject areas:

*People, work and society Access module (Y032)*

*Science, technology and maths Access module (Y033)*
DO YOU QUALIFY FOR A FREE ACCESS MODULE?

You can study an Access module for **free** if you:
- live in the UK (excludes Channel Islands and Isle of Man) or have a British Forces Post Office address
- are studying the module to prepare for an OU qualification (this doesn’t apply if you live in Scotland)
- have a household income (or, in Scotland, a personal income) of £25,000 or less, or you’re receiving qualifying benefits
- have completed no more than one year of a full-time undergraduate programme at FHEQ or CQFW level 4/SCQF level 7 or above, and not completed 30 credits or more of OU study.

**HOW MUCH DOES AN ACCESS MODULE COST?**

If you don’t qualify to study for free, the cost depends on where you live.

- In England, the Channel Islands and the Isle of Man it’s £753.
- In Northern Ireland, Scotland and Wales it’s £252.

You can pay up front by debit or credit card, or by bank transfer. Or spread the cost with an Open University Student Budget Account – see page 17 for more information.

If you’re studying an Access module in preparation for an OU qualification and you live in England or Wales, you could cover the cost with a student loan – see page 16 for more information.

You can pay using a debit or credit card, or by bank transfer. Or spread the cost with an Open University Student Budget Account – see right for more information.

I had always wanted to study at university, so on my return from Spain, I decided to do lots of research and the OU stood out to me due to the distance learning element. It meant that I could fit my studies around my life and continue working to develop my career.

As a result of my studies, I secured a new role at work – and my boss was particularly impressed with my dedication and commitment to both studying and working at the same time.

The overall support from the OU is second to none and there is a real sense of commitment to the students. My tutors and the quality of teaching materials made a huge difference, and allowed me to balance my workload and clearly understand everything so I could complete each module and assignment.

I’d definitely recommend OU study to anyone thinking of becoming a student – don’t put it off! It teaches you self-commitment, determination and how to be more efficient with your time. And aside from a world-recognised qualification, the best benefits are the tangible and transferable skills that you take away with you.

WITH ENGLISH AND GERMAN
Qualification delivery, module availability and qualification structure are subject to change.

1 If you combine two modern languages, you’ll instead study Exploring languages and cultures (L161) and an extra 30-credit module.

This flexible degree allows you to study two modern languages – from French, German and Spanish – or to combine one of them with English. You can even include some Italian or Chinese.

Learning a language and how languages work (including English) opens doors to other cultures and communities, giving you experience of the world that goes deeper than the average tourist trip. It can also provide a key to the global workplace. By the end of your studies, you’ll understand how language is structured and used in different contexts and be an effective and culturally aware communicator – attributes that are increasingly valuable in today’s global environment.

WHY CHOOSE THIS QUALIFICATION?
- Develops you into a proficient user (Common European Framework of Reference for Languages level C1) of at least one modern language.
- Develops advanced knowledge of the cultures that use your chosen languages.
- Extends your competence in intercultural communication.
- Offers the option of a week in France, Germany and/or Spain.
- Enables you to understand how language is structured and used in different contexts.

ROUTES THROUGH THE DEGREE
You can combine two modern languages from French, German and Spanish or combine one of these with study about the history, global impact and structure of the English language. Your choice of languages will be included in the name of your degree, for example, BA (Hons) Language Studies with English and German.

You can study the modules in your chosen languages one stage at a time. Alternatively, you can study the modules in one language – completing 60 credits at each stage – before studying the modules in your second language. What you choose to study at Stage 1 will depend on your current modern language proficiency.
