Structure and content
The postgraduate programme will be in two stages:

Postgraduate Diploma in Social Work
*K832 Developing social work practice + K833 Advancing social work practice*

A Postgraduate Diploma in Social Work, which will be the qualifying award for entry to the HCPC register for social workers in England. 120 academic credits studied over 17 months, including two practice learning placements.

MA in Social Work
*KXXK829 Transforming professional practice*

A Masters project/dissertation module, which will enable students to extend their skills in research and analysis. 60 academic credits studied over 9 months. Completion of all three modules leads to the award of MA in Social Work.

Module content
Relevant teaching has been integrated into *K832 Developing social work practice* and *K833 Advancing social work practice* to provide a thematic approach to exploring law; digital and information literacy; values and ethics; safeguarding practices; theories and approaches in social work intervention; and research methods and evidence-based practice. There are study pathways in each of the practice-related modules, so that students working with particular service user groups can study relevant learning guides alongside their placement, to support their practice learning.

**K832 Developing social work practice**

*Start date:* late January  
*End date:* early-September  
*Credits:* 60

*Practice-based learning:* 80-day placement (normal attendance pattern 4 days per week for 20 weeks)

Entry requirements

All candidates must meet minimum entry requirements before applying for entry onto the postgraduate social work programme.

1. Applicants must hold a first degree (BA (Hons)/BSc (Hons)), which must be:

   EITHER

   A minimum of a 2:1 classification in a relevant health/societal/psychology or other cognate discipline such as:
   - Health and Social Care
   - Nursing
   - Occupational Therapy
   - Psychology
   - Sociology/Social Studies
   - Law/Legal studies
   - Teaching/Education

   OR

   A minimum of a 2:2 classification in any discipline together with a proven record of experience of engaging directly with Service Users in a professional setting. Candidates’ experience will be considered individually on application but we would normally expect a minimum of one year’s experience – either paid or voluntary – in a setting such as a local authority or a health or social care provider in the private, voluntary or independent sector.

2. In addition, all candidates must:

   - Have GCSE grade A* – C in English and mathematics or certified equivalent
   - Demonstrate IT competence through self-declaration
   - Achieve an International English Language Testing Systems (IELTS) score of 7 if English is not their first language
   - Have an enhanced DBS with lists check (i.e. checks against all registers including both children and vulnerable adults) dated within one year prior to starting the programme
   - Complete a health check. If, in exceptional circumstances, there are serious doubts about a student's fitness to practise on health grounds, the University’s doctor may ask him/her to undergo a medical examination. This examination will be at the applicant's own expense.

Selection process

There is a formal admissions process, requiring applicants to:

   - Complete an OU application form, which will include a personal statement, references and employer endorsement
   - Complete a declaration of suitability for social work
   - Undertake a written test
   - Take part in an interview

For further information see ‘How to apply’ below.
How to apply

This course includes two compulsory periods of assessed practice learning, which must be undertaken in a suitable work environment. The work-based learning is delivered in collaboration with employers, who are responsible for ensuring that suitable placements are available. For this reason, we are unable to accept applications from individuals. Candidates must already be working in a social care environment, and applications must be made through a supporting employer.

These are the steps to making an application:
