Update your data management plan (DMP)

The first version of the full DMP should be delivered within the first 6 months of the project and needs to be updated at least by the mid-term and final review. Create new versions whenever important changes to the project occur.

Send the plan for review to library-research-support@open.ac.uk

Publish your outputs Open Access

All peer reviewed research outputs from H2020 projects are required to be Open Access. This in practice means all journal articles should be Open Access. Other types of output (e.g. books, conference proceedings and reports) that may not be peer reviewed are encouraged to be Open Access.

Find out more: http://www.open.ac.uk/library-research-support/open-access-publishing/european-union-open-access-policies

Acknowledge the terms, name of the action, acronym and grant number in your publications

Choose Green or Gold. The costs for publishing Gold Open Access cannot be reimbursed from the budget once the grant has ended. The maximum embargo period for items published Green Open Access is 6 months (12 in the Social Sciences and Humanities)

Share your data

Deposit your data in a subject repository or in ORDO: https://ou.figshare.com

Include a data access statement in your publications
