

# FutureLearn Fellows

## Connecting researchers with what they need

Monty King, Partnership Manager

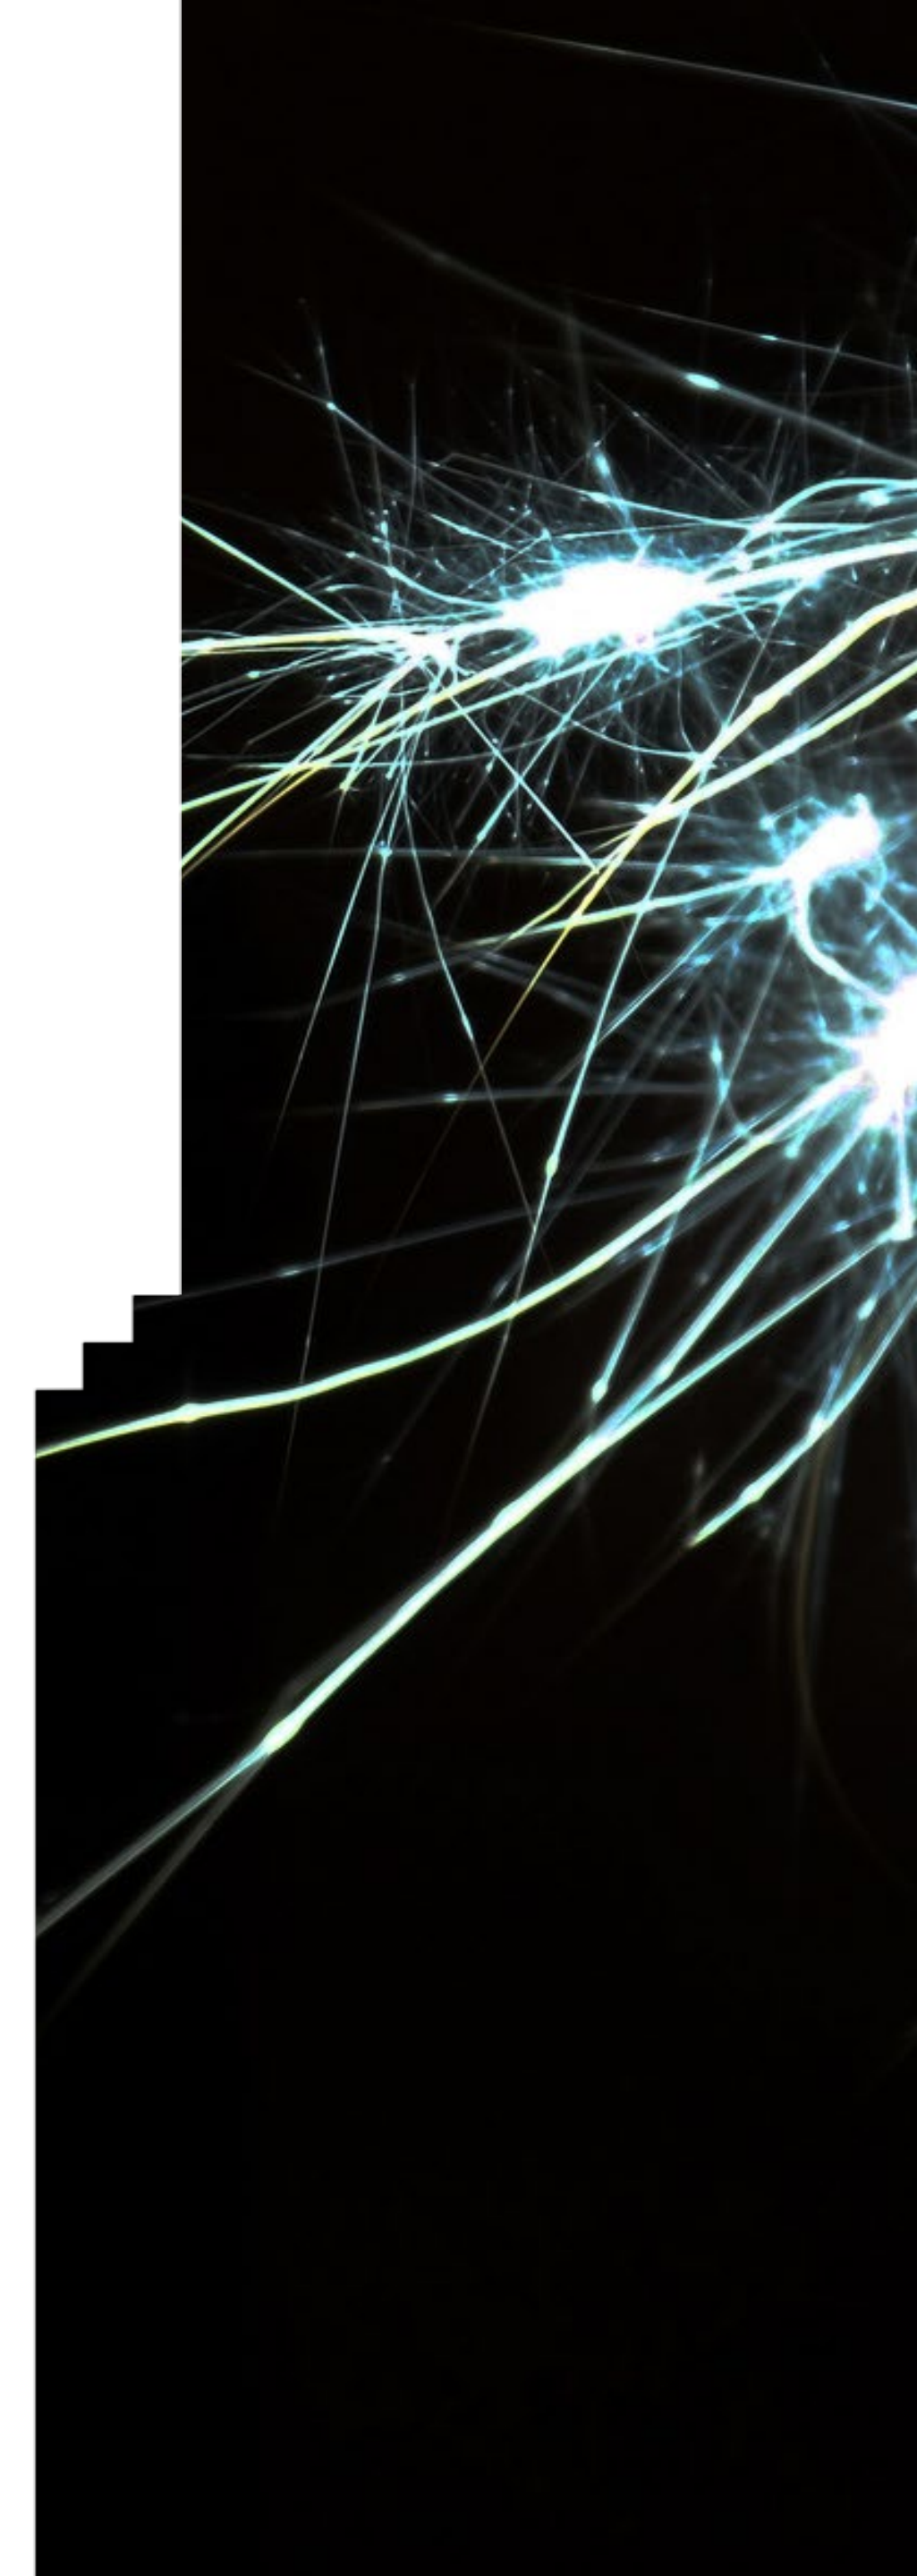

## Aims

We know that a number of our partners already carry out research on and around their courses on FutureLearn. We want to:

- Recognise the people who have a dedicated research focus on expanding understanding of the FutureLearn platform and pedagogy
- Provide support to enhance their research outcomes
- Enhance understanding and insights into how people learn online
- Enable more effective learning on FutureLearn.

## We offer

- A two year appointment with simple renewal.
- Public and open support for research projects & bids
- Named contact points for proposals, publications and regular liaison.
- A platform for sharing and networking
- Access to richer datasets
- Public exposure and promotion
- Input into roadmaps

## Existing Fellows working on...

- Analysis of pre/post course survey results
- Synthesis of learner comments across multiple runs
- Learner & educator interaction and behaviour
- Impact of professional development courses
- How refugees engage with MOOCs
- The role of MOOCs in research
- Learning design based on interactions and clickstreams
