

Credit Transfer Factsheet

MSC IN ADVANCED CLINICAL PRACTICE (F85)

If you have previously studied elsewhere and your studies were completed at the same academic level as OU modules, we may be able to award you credit transfer towards an OU qualification: this will reduce the number of OU modules you have to study to complete your OU qualification. You need to decide which OU qualification you wish to study for with us before you can apply for credit transfer.

This factsheet tells you about transferred credit from elsewhere into this particular OU qualification.

Please note that:

- We can only confirm how much credit you can be awarded once you have made a formal Credit Transfer application which has been considered by an OU assessor.
- Your previous studies must be at the same academic level and carry at least as many Credit Accumulation and Transfer (CATS) points, as the OU study from which you are to be exempted. More details about CATS points and levels can be found on our website at www.open.ac.uk/credit-transfer.
- We will award you as much credit transfer as possible, but this may be less than the maximum available towards this OU qualification. This is because the amount of credit transfer you can be awarded depends on several factors (such as the number of credits you achieved and how closely your previous study matches the OU modules).
- If you are awarded the maximum amount of credit transfer (120 credits) and choose to accept the full 120 credits, your MSc will be unclassified. This is due to the minimum study requirements of OU modules to be considered for a degree with classification.

Credit transfer towards the MSc in Advanced Clinical Practice (Qualification code F85)

Please note that any award of credit transfer towards this qualification does not guarantee acceptance onto the programme. For further advice about entry to the qualification, please contact your staff tutor in your local National/Regional Centre **before** submitting your credit transfer application.

Maximum credit transfer available towards this qualification

The maximum number of credits that can be transferred towards this qualification are shown in the table below. The actual number of credits that you are awarded will be determined when your application for credit transfer has been assessed and may be less than the maximum shown below.

Degree component	Type and amount of possible credit transfer
60 credits – K803 Non-Medical Prescribing (NMP)	60 credits of module exemption
60 credits – K804 Developing Advanced Clinical Practice	60 credits of module exemption
60 credits – K805 Advancing Professional Practice	60 credits of module exemption
Maximum credit transfer towards this qualification	120 credits

Types of credit transfer

There are two types of credit transfer: **module exemption** and **general credit exemption**. The table on page 1 shows which type/s can count towards this qualification.

Module exemption: means that you have been exempted from a particular OU module in recognition of your previous study. Your prior study must be at, or equivalent to, the UK academic level of the OU module/s you are being exempted from and considered to be broadly in-line with the learning outcomes of your chosen OU qualification. Your Credit Transfer Award will specify which OU module/s you have been exempted from studying towards your chosen OU qualification.

General credit exemption: means that you have been exempted from studying the specified amount of credit at the given academic level towards this OU qualification. This type of credit transfer is awarded if your previous study is at, or equivalent to, the UK academic level of the OU module/s concerned and is considered relevant to this OU qualification in terms of subject and/or skills development. This type of credit transfer differs from module exemption in that it does not exempt you from any particular OU module/s. Your Credit Transfer Award will indicate the number of credits you have been exempted from, and at what level/s, towards specific components of the qualification.

Age of previous study

The University may award credit transfer for study completed in the last 16 years. We will calculate the age of your previous study based on the completion date of eligible study.

Maximum duration of study

5 years, or 4 years with credit transfer.

When we assess your application for credit transfer we will look at how similar the study you completed is to the OU modules in this qualification. How much credit you are awarded is likely to depend in part on how closely the subjects of your previous studies match those of the modules in this qualification. To read about the subjects covered in this qualification visit the qualification description at <http://www.open.ac.uk/postgraduate/qualifications/f85> .

What do I need to provide with my application?

Every application must be supported by official evidence, usually in the form of an academic transcript and a certificate. Please see the application form and the FAQs on our website for more information about the evidence you will need to provide.

For applications towards this qualification you will also need to provide syllabus information in order that the academic expert can map how closely your previous study matches that of the OU modules in the qualification. Your academic transcript will provide a list of the modules or units you completed, but syllabus information provides a detailed description of the content of each of those modules, often about a paragraph per module/unit. If you do not provide syllabus information, we will be unable to assess your previous study towards this qualification.

K803 Non-Medical Prescribing (NMP) - If you have completed a postgraduate level 60 credit NMP programme, you only need to provide your official transcript and your syllabus/learning outcomes, along with the credit transfer application form (for recognition of prior certificated learning - RPCL). If you have completed NMP at undergraduate level, or at postgraduate level but with less than 60 credits, you will need to complete the Recognition of Prior Learning (RPEL) Application too.

Please see our full [Guidance on applying for Recognition of Prior Learning](#).

K804 Developing Advanced Clinical Practice – You can apply for RPL by evidencing postgraduate level learning, accredited and/or experiential, equivalent to 60 credits that is mapped to the learning outcomes for that module.

Please see our full [Guidance on applying for Recognition of Prior Learning](#).

K805 Advancing Professional Practice – You can apply for RPL by evidencing postgraduate level learning, accredited and/or experiential, equivalent to 60 credits that is mapped to the learning outcomes for that module.

Please see our full [Guidance on applying for Recognition of Prior Learning](#).

Unique study rule

For each OU qualification, you must include an amount of OU study that is unique to that particular qualification (credit from study completed at the OU which has not previously been counted towards another OU qualification). Full details are given in the degree regulations, in the Qualification Regulations section of the qualification description:

<http://www.open.ac.uk/postgraduate/qualifications/f85>.

Further information you will need

To find out more about credit transfer, and to download a Credit Transfer application form, visit our Credit Transfer website: www.open.ac.uk/credit-transfer. This site also tells you what previous study can be used for credit transfer and explains in detail how the application process works.

You should read this Credit Transfer factsheet in conjunction with the qualification description which can be found at: <http://www.open.ac.uk/postgraduate/qualifications/f85> which

- Contains the University regulations
- Gives information on the structure of your chosen OU qualification

If you require a version of these notes in an alternative format, such as large print, please contact us.

This factsheet has been prepared by the Credit Transfer Centre, The Open University, PO Box 80, Milton Keynes, MK7 6AS.

You are welcome to contact us regarding your application for credit transfer, however please note that we are unable to advise you how much credit transfer you could be awarded before we have assessed your formal application.

You may find that your query has already been answered at www.open.ac.uk/credit-transfer.
